New York, Nov. 11.—The week opened with a cheerful tone in the financial district. The flow of gold from Europe continues. The Uni-

versal ship secured practically all the three millions dollars in gold offered in London today.

The Lusitania has a new claim on fame. After demonstrating the right to be labeled the largest and fastest steamship afloat, the great Cunard liner is now playing an important part in the financial rehabilitation of the United States. She left Liverpool with \$10,000,000 in gold on board, the

DOPE OUT RESULTS FOR THE BIG GAME

Wise Ones At Madison Think Wisconsin Can Beat Minnesota In Two Weeks.

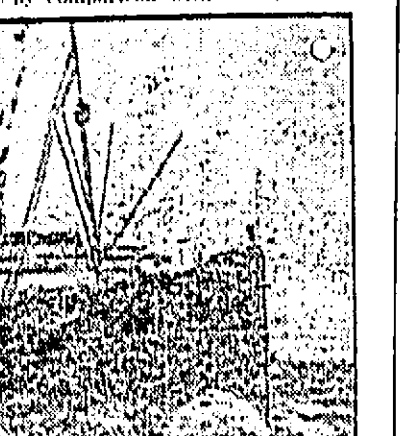

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Nov. 10.—While Minnesota is battling with the mighty Canadian Indians next Saturday, Wisconsin will be romping with the equipped and inferior eleven of Purdue university, and out of this circumstance the badgers hope to profit in the big final struggle with the sophomores two weeks hence. It is figured that Minnesota will be beaten and battered by the red men, while Wisconsin will be given just a good practice and the badgers will be in the best condition when the cardinal and the maroon and gold, traditional enemies on the gridiron, meet.

Wisconsin's training will be heavy on the point of blocking kicks. In order to meet the wonderful ability of Capron, who has won victories for the gophers this year with deep kicks, although his team has not been able to score the goal line of an opponent, Wisconsin has this season never before been drilled in the art of blocking through to interfere with and block kicks, and the wisdom of this policy was evidenced in the victory of Iowa a week ago and the defeat of Indiana yesterday. McClellan, Indiana's clever kicker, scored eight points with his boot, one on a drop and once from placement, but he was so much annoyed by the badgers who would kick through the line to spoil his kicks that although he had three good chances in the second half, he failed to send the one kick which was needed to change the result from 11 to 8 to 12 to 11. Wisconsin's first touchdown was made by Center Stadium, who broke through and blocked a punt near the Hoosiers' end line, and was able to get over the line with the ball. So Wisconsin profited by the blocking policy not only in preventing scores but in adding to the cardinal total. This training will go on now in preparation for Mr. Capron.

American Mining Congress

WILL FIGHT HARD
IN LOS ANGELES

Federation of Labor Will Spend \$200,000
in South California City to
Win Out.

[SPECIAL TO THE GAZETTE.]

Norfolk, Va., Nov. 11.—The annual convention of the American Federation of Labor which was opened in this city today and which will continue probably for at least two weeks, got into working order before an adjournment was taken this afternoon.

President Gompers delivered his annual address to the delegates and annual statements were received from the secretary, treasurer and chairman of the executive council.

More than 500 delegates were present when the convention was called to order. One of the first acts of President Gompers upon taking the gavel was to call to the platform Messrs. Hodge and Schmiedel, the two fraternal delegates representing the British Trades Union Congress.

The two delegates were given a most cordial reception by the convention. The address of President Gompers took up most of the afternoon. He reviewed in length what the federation had accomplished during the year and he made numerous recommendations. His references to the work of the federation in politics, the \$200,000 fund which it is proposed to raise for carrying on a labor fight in Los Angeles, the reasons for the expulsion of the United Brewery Workers from the Federation, and the efforts of the manufacturers' association to prevent the federation from publishing its list of alleged unfair concerns were all listened to with closest attention by the delegates, and several times the speaker was interrupted by loud applause.

There are indications that the present convention is to be one of far more than ordinary interest and importance to organized labor and the public at large. The heretofore latent opposition to the rule of President Gompers and the present executive council promises to come to the surface and, though there appears to be slight possibility of an overthrow of the present administration, any demonstrations or steps taken with that end in view will undoubtedly precipitate a stormy scene on the convention floor.

However, Seattle and Toronto are contesting for the federation convention of 1908.

Hounds from many states will contest and the meet promises the best sport in years.

GREAT INTEREST IN W. J. BRYAN'S SPEECH

Noted Nebraskan Expected to Make
His Speech in Milwaukee "Key-

note" for Later Talks.

[SPECIAL TO THE GAZETTE.]

Milwaukee, Wis., Nov. 11.—Democrats throughout Wisconsin are looking forward with great expectations to the appearance of William J. Bryan tonight, when he will be the guest of honor at the twenty-first annual banquet of the Jefferson club of this city. The banquet will take place at the Plankinton and covers will be laid for 500 guests.

It is rumored in political circles that Mr. Bryan may make the banquet the occasion for the "key-note" speech which he was to deliver in Carnegie hall, New York, and which was called off because satisfactory arrangements for the use of the hall could not be made. It is understood that Mr. Bryan will make his address tonight an authoritative and comprehensive statement of his views as to the democratic party policy and an expression of his views at this stage of the presidential campaign.

George W. Peck will act as toastmaster at the banquet. In addition to Mr. Bryan's address the program will include responses to toasts, as follows: "Trusts," Congressman J. W. Murphy of Pittsfield; "The Tariff," Congressman C. H. Welles of Sheboygan Falls; "Jeffersonian Principles," T. E. Ryan, of Waukesha; "Wisconsin Democracy," John A. Aylward of Madison.

LOUISIANA TO PROBE

[SPECIAL TO THE GAZETTE.]

Baton Rouge, La., Nov. 11.—Pursuant to the call of Governor Blanchard the Louisiana general assembly was called to order in extra session at noon today. The session, which is limited to thirty days, will consider the appointment of a commission to investigate charges at New Orleans in connection with the recent strike of 10,000 levee workers, which is estimated to have cost the state business interests \$1,000,000. Alleged unfairness in port conditions will also be considered. The assembly will also be asked to reduce the fee of state tax collectors and to decrease their number. Recently the state has discovered embezzlements in the tax department amounting to about \$200,000. Other subjects for consideration include preparation of an appeal to congress for a convention designed to re-conduct election of United States senators by the people, amendment of the state primary election law and completion of the transfer of maritime quarantine from state to federal control.

A SENSATIONAL TRIAL IN WASHINGTON OVER MURDER

Reasons Why Mrs. Bradley Killed United
States Senator Brown, Of Utah, To
Be Aired In Court.

[BY ASSOCIATED PRESS.]

Washington, D. C., Nov. 11.—On account of the death of Justice McConna of the court of appeals, the trial of Mrs. Annie Bradley, charged with the murder of former Senator Brown of Utah, was postponed until Wednesday.

No murder case here in years, none in fact since the famous murder trial of Mrs. Beaudry nearly a decade ago, has excited such deep interest as has been excited in the trial that has now commenced. The wealth and prominence of the victim and the double romance of his life are responsible in a large measure for the public interest in the case. The dragging in of the name of Mrs. Adams, mother of Maude Adams, the actress, has also whetted the public appetite for further details of the case. Mrs. Adams is expected to be one of the principal witnesses. She has told friends that she is anxious to testify for no other reason than to clear the name of the dead Senator, to whom it is said she was engaged. She admitted as much when she came here to see the body of the Senator after the tragedy, before it was taken west by his children for burial. It is said that Mrs. Bradley first learned of the engagement between the Senator and Mrs. Adams a few days before the killing.

It is now nearly a year since the tragedy occurred in the Hotel Raleigh, where the Senator was shot in his apartments by Mrs. Bradley after a stormy interview. At the Emergency Hospital, where he lingered between life and death for several days, Senator Brown steadfastly refused to talk and refused all the importunities of the police to make a statement of the affair.

When she was taken into custody Mrs. Bradley declared that she was justified in doing what she did, and that all Utah knew the cause of the tragedy. She said Senator Brown was the father of her two children—Arthur Brown, Jr., seven years old, and Montgomery Brown, three years old—and that she refused to marry her, despite his repeated promises.

The Senator had been censured because of a clause in his will which expressly denied any claim on the part of the Bradley children to his name or his property. John S. Reilly, stenographer of the state supreme court at Salt Lake City, declared, after the tragedy, that Brown's name and an equal share in his fortune and a contract by which Mrs. Bradley was to accept a home for life and waive her demands for marriage. Mr. Reilly says he learned afterwards that Mrs. Bradley refused to sign the papers and that they had been destroyed.

Senator Brown's relations with Mrs. Bradley had extended over many years and were one of the causes that led to the separation from his first wife. Senator Brown came to Washington early last December on business. He registered at the Hotel Raleigh. Mrs. Bradley followed him a few days later and registered at the same hotel. She was assigned to a room on the same floor. Late in the afternoon of her arrival, after learning which was the Senator's room, she went to it and rapped. After a short conversation, either of the wounded man brought the hotel employees to the room.

Mrs. Bradley admitted she had shot the Senator and declared she believed she was justified in doing so. She denied that she had come to Washington for the purpose of killing the Senator.

Mrs. Bradley claims to have found letters in Senator Brown's apartments showing that he had an appointment to meet Mrs. Adams in New York. Whether this entered as a motive in the tragedy will not be known until the evidence is brought out at the trial, although at the time of the murder, Mrs. Adams expressed deep sympathy for Mrs. Bradley, and declared that if only she could have met her before the tragedy, she might have helped to prevent it.

A press agent has been hired, a staff of stenographers engaged and assistant are at hand to help Speaker H. L. Eklund in planning to devote his entire time to the work of booming La Follette for president, and Senator A. W. Sanborn of Ashland will also give the work much time. paign will be carried on to get the history of La Follette in Wisconsin's stormy political fights of the last ten years spread abroad in other states by means of a newspaper campaign.

W. W. Powell, for years a political writer for the La Follette faction in Wisconsin, has been engaged as press manager. It is believed that the story of La Follette in Wisconsin will win for him support abroad as a man who will not cease to fight in a cause, which the La Follette people declare is the best cause, until the fight is completely won, and then he will fight to keep his enemies dead. As yet nothing is given out at the headquarters of a definite nature indicating the strength of the badger senator in other states.

It being said that of the 150 tickets disposed of at this time, more than half have been purchased by republicans. The banquet will be spread at the George Bros. restaurant and Hubert Falke or L. J. Nash will probably preside as toastmaster. Congressman C. H. Welles of Sheboygan will be present and may also speak at the meeting to be held at Turner hall. The banquet will open at 12 and close at 2 and the address by Mr. Bryan will follow at once. A large delegation of two rivers people and of Rockville residents have reserved seats at the banquet. State Senator S. W. Randolph is in charge of the arrangements.

This Time It Was Different.

"To tell the truth, Dr. Richards," said the wife of one of our most prominent merchants, "I have neglected my teeth for years, since Dr. Richards of this city filled some teeth for me. He hurt me so dreadfully that I laughed and cried in almost hysterical when at last he let me out of that chair."

"Well," said Dr. Richards, "how was it this time?"

"You never hurt me one bit," said she and the Dr. had just finished filling a lot of her teeth with gold.

It is very pleasant to Dr. Richards to receive these kind words from bright, intelligent people who know when they receive good services and appreciate them.

The multitude of hearty endorsements given him in this city by people who have tried him and found his work really painless, makes him stand out clearly among his fellows as the man to go to for real painless dentistry in Janesville.

His prices are also reasonable, which is not a bad feature for the one who pays the bill.

James Kelly, Alleged to Have Mulcted a French Canadian, Sent to Jail for Drunkenness Pending Investigation.

On a complaint alleging that he had thrust a hand into the trousers pocket of a French Canadian companion at the Riverside hotel bar and eluded a sum of money aggregating about seven dollars, James Kelly, a laborer who came here from Chicago last week to work in the South Janesville railroad yards and who claims to have parents living at 1021 Second avenue, Eau Claire, was arrested by Officer Brigham Saturday evening. It is claimed that the French Canadian intended his money the instant the hand was withdrawn, pitched onto Kelly, and that the two men eluded and he had to be separated by Landlord J. E. Hemming and others. The version as to what occurred varies, however, and the principals both appear to have been intoxicated. The sum of \$6.50 was found on Kelly when he was searched at the police station. "Please, your honor, I'm a poor boy and work for a living—for God's sake help me!" cried the prisoner, with tears streaming down his face, when arraigned on the charge of drunkenness in municipal court this morning. Judge Plafieau sent him to jail for five days in the county jail. Meanwhile the conflicting stories with regard to the offense will be investigated by Acting City Marshal Brown.

CHARGED WITH CRIME AGAINST AN INFANT

Sixteen-year-old Earl Baxter Was Brought to from Farm 10 Miles Southeast of Whitewater Late Saturday Afternoon.

Charged with attempted assault last Thursday on Maude Gonla, four-year-old daughter of Levi Gonla, whose farm is located in the town of Johnsonville, Earl Baxter, a sixteen-year-old farmhand, was arrested on a farm ten miles southeast of Whitewater by Sheriff Fisher and brought to this city about four o'clock Saturday afternoon. Frank Tradein, an uncle of the boy, who lives in Hart Prairie, had sent him on Friday to play a neighbor back a day's work and the sheriff located the youth only after a long chase. The little girl's father promised to be here this morning to appear against the prisoner in municipal court but failed to show up. While the boy is alleged to have admitted that he took improper liberties with the child, he denies the charge preferred against him. His examination was set for Thursday morning at 10 o'clock and bail was fixed at \$800. The unhappy mother of the boy, who was present in the courtroom, was unable to furnish the bonds and he was remanded to the county jail pending his hearing.

JANESVILLE FIRMS ENTERED EXHIBITS

Alexander Galbraith & Sons and Mc-Lay Bros. Have Entries at Live Stock Exhibit.

From November 20th until December 7 Chicago will be the Mecca for the live stock owners of the United States. Two Janesville firms, Alexander Galbraith & Son and Mc-Lay Bros. have exhibits of their fine horses entered. Mc-Lay Bros. lead with twenty-six—twenty-two in the Clydesdale class and four in the draft class. Alexander Galbraith & Son have four in the Clydesdale class, three in the shires, and three in the line class.

The over-riding popularity of the International Live Stock Exposition is becoming more apparent each year, which fact is evidenced by the phenomenal increase in the number of exhibits entered for this year's event. At the 1907 Exposition there will be about 1,200 pure bred and fully the same number of pure bred and imported sheep, nearly half a thousand and of the finest specimens of swine and nearly 700 beautiful high-bred horses. The show will not only be greatly increased and improved in its exhibits this year, but the Union Stock Yards Company has again evidenced its liberality and enthusiasm for the improvement of live stock by expending a handsome fortune in providing additional facilities for this greatest live stock exposition. The show exhibitors will be given new, bright and cheerful quarters, and an enormous, handsome, new sale pavilion, constructed of concrete and iron, has been erected on the show grounds. Many additional and attractive features will be added to furnish entertainment for the visitors, and an educational and live stock lines no comparison can be found of this great exhibition, which is the supreme final contest of the season.

SEEKS A SEPARATION FROM FRITZ ALBRECHT

Wife and Sheriff Visited His Home in the Town of Center This Morning.

Sheriff Fisher visited the home of Fritz Albrecht in the town of Center at an early hour this morning and roused the surprised lord of the manor from his downy couch to serve notice of an action for divorce and alimony, joined with a suit to recover an alleged loan of \$100, which his better half has commenced against him through her attorneys, Whitehead & Matheson. The wife, who has been making her home recently at Barton W. Snyder's farm, a half mile away, accompanied the officer as she wished to secure a quantity of wearing apparel which she had left behind her. Mr. Albrecht, dressed with the formality of a divorcee, beyond donning a pair of wooden shoes, and followed the intruders about in his child and abbreviated robe-de-nuit for a time. Mrs. Albrecht is Fritz's second wife and she alleges that he has cruelly beaten her on more than one occasion.

BANK RESERVES LOSS IS SMALLER

ARRIVALS OF MORE GOLD PROBABLY WILL OFFSET IT.

PRECAUTIONS IN EUROPE

Old Country Must Pay Substantially for Balance of Exported Products Being Created for America.

New York, Nov. 11.—The most eventful week in the financial history of the present generation came to a close on Saturday with conditions much clearer than a week before, but with some clouds still hanging over the financial horizon.

The previous week had closed with the disquieting announcement that the New York bank reserves had lost \$20,000,000 in cash, in spite of deposits by the government during the week of a nearly equal sum, representing a net cash loss of \$60,000,000.

Decrease Much Reduced.

The bank statement of Saturday changes this situation. While it shows a nominal decrease in required reserves of \$13,885,800, more than two-thirds of this decrease is due to the reserve requirements caused by increase in deposits because of the taking over of loans from the trust companies by the banks. Moreover, the actual cash loss of \$13,885,800, is due to the system of averaging accounts for the entire week, including several days before the arrival of the new gold.

Unless demands from the country are very heavy this week, the arrival of additional gold will more than offset the loss of cash last week and make a creditable showing for reserves on Saturday next.

European Banks Protect Themselves.

The restoration of comparative security in New York was obtained only by demands upon the money markets of Europe, which created a tension not before experienced since the Boer war. Indeed the Bank of England in order to protect its gold resources raised its discount rate on Thursday to seven per cent, a rate which had not before been fixed since 1873. The Bank of France raised its rate for discounts to four per cent, the Bank of Belgium to six per cent, and the Bank of Germany fixed the unusual rate of seven and one-half per cent.

It is not surprising that these precautions were taken to protect European bank reserves. In view of the fact that nearly \$50,000,000 in gold was engaged by American banking institutions within less than two weeks. The first arrival of the yellow metal came at the critical moment when the trust company situation was uncertain on Tuesday. Then came smaller shipments on Wednesday, and on Friday the delivery of \$12,381,000 by the Louisiana.

Europe Must Pay for Gold.

The demand for gold from Europe came at a favorable time in some respects for the outward movement of American products of which the leading ones are cotton and wheat. The fact that European bankers declined during the summer to accept American bills, because they already counted the storm, made the demand upon them more sudden than would have been the case if American bankers had found it necessary at the present time to buy cotton and grain bills to cover previous borrowings. Under the actual conditions Europe must pay substantially in gold for the balance of exported products which is being created in favor of this country by every bale of cotton and ear of wheat placed on shipboard for export.

Bank Failures Relatively Few.

One of the favorable features of the situation thus far is the relatively small number of failures of national banks as compared with the record of 1893. At that time 78 national banks suspended in the single month of July and 43 additional in June and August, while during the first eight months of 1893 the number of suspensions of state and private banks was 415.

In the present crisis the number of national bank suspensions reported does not exceed a dozen, and some of these will reopen.

October Failures Are Large.

While October failures were the largest of any month for 11 years, the total being swelled by the suspension of several large establishments which represent the merger of smaller institutions and the suspensions have been generally due to curtailment of credit rather than lack of business, yet the reports for the first week of November are distinctly favorable, showing only 239 failures as against 262 and 273 for the two previous weeks.

The new week opens with the banking situation in New York cleared up so far as any danger of further failures or suspensions is concerned with the banking reserves comparatively intact, and with more than \$25,000,000 on the ocean to strengthen them during the coming week.

Muskogee Banks Get Cash.

Muskogee, I. T., Nov. 11.—The Patterson Mercantile company of this city received \$100,000 in currency Saturday night from New York by express. The money will be paid for cotton to relieve the financial situation. Officers of the company state that much more is now on the road from the east. Up to this time the banks have been unable to secure shipments of currency.

In all races the man's brain averages ten per cent heavier than the brain of the woman.

SAD TRAGEDY IN THE TOMBS

FORMER ITALIAN ARMY OFFICER HURLS HIMSELF TO DEATH.

Deserted to Magry, Failed to Earn Living in West and Was Refused Aid by Brother.

New York, Nov. 11.—Giovanni De Cichichia, who, until he was compelled to choose between love and duty, was a lieutenant in the Italian army, committed suicide in the Tombs Sunday. His imprisonment had been brought about by his brother Luigi, a banker of this city. The latter beloved Giovanni's fiancée.

According to the police records, he fell in love in Italy, and, unable as an army officer to support his wife as he wished, deserted and sought his fortune as a cowboy in the American west. The venture was not a success, and finally, leaving his wife in their new home, he came to New York to get a fresh start. Again unsuccessful and penniless, he asked financial aid of his brother. The meeting of the brothers was not amicable and at a second interview Giovanni was alleged to have persistently demanded first \$1,000 and then \$2,000 from the banker. He exhibited a revolver and, it was charged, threatened his brother's life. The banker wished to have Giovanni detained as insane, but the court would not entertain this charge and the former soldier was held for trial on a charge of carrying concealed weapons. In the Tombs Giovanni became despondent, complained bitterly of former friends and constantly grieved for his girl wife, left alone in the west.

When the doors were opened to permit the prisoners to go to the yard for their daily exercise Sunday, Giovanni, who occupied a cell on the third tier, stepped quickly out upon the balcony, sprang upon the guard rail and dove headfirst from the staging. Several hundred prison companions witnessed his death.

QUAKE'S VICTIMS ABOUT 14,000.

First Direct Reports Received from Karatagh, Turkistan.

St. Petersburg, Nov. 11.—The first direct reports from the scene of the great earthquake at Karatagh, Russian Turkistan, about three weeks ago, reached this city Sunday from a correspondent who accompanied the relief expedition sent from Jamarikan. Telegraphing under date of November 9 the correspondent says:

"The town of Karatagh was completely destroyed. The victims number about 4,000 in Karatagh and about 10,000 in the adjoining district of Damausk. All the villages in the vicinity were wrecked. It is probable that there are hundreds more dead in these villages, but investigation is only now determining the approximate number."

Barcelona, Nov. 11.—An earthquake Sunday caused a serious landslide close to the village of Valcumbre, the population of which died.

MRS. JULIE WYMAN A SUICIDE.

Famous Oratorio Soloist Kills Herself in New York.

New York, Nov. 11.—Mrs. Julie Wyman, 60 years of age, a music teacher who came here last week from Philadelphia, committed suicide by inhaling illuminating gas at the home of her daughter, Miss Cora Wyman, some time Saturday night.

Mrs. Wyman separated from her husband, Walter Wyman, said to have been a wealthy coal dealer and club man of Chicago, several years ago. She sang with Melba at the Waldorf Astoria ten years ago, and was famed as an oratorio soloist throughout this country. She was Miss Julie Moran before her marriage.

Washington, Nov. 11.—Louis Emery McComas, associate justice of the court of appeals of the District of Columbia, former United States senator and for four terms congressman from Maryland, died at his home in this city Sunday. His death was due to heart failure.

Judge McComas was born in Washington county, Md., in 1846, and the funeral service will be held Tuesday at Ungerstown, where he formerly lived.

Man Murdered and Robbed.

Johnstown, Pa., Nov. 11.—Badly mutilated and bearing marks showing that he had been shot repeatedly and terribly beaten, the body of William Cline, a prominent citizen of Johnstown, Pa., near here, was found Sunday in a field. The motive of the crime is thought to have been robbery, as at the time of his death Cline had on his person a large sum of money received from the sale of a saw mill. This money was missing when the body was found.

Jealous Husband Slays Wife.

Winnington, Del., Nov. 11.—Crazed with jealousy, Fred M. Underhill Sunday night shot and killed his wife and then turned the revolver upon her sister, Rachael Nelson, firing five bullets into her body. She is also expected to die.

ENGLAND WANTS A VISIT FROM TAFT

STILL HOPEFUL THAT HE WILL FIND TIME TO STOP.

MANY ADMIRERS THERE

Agulnaldo Discusses Benefits to Philippines That Will Result from the War Secretary's Visit.

London, Nov. 11.—If Secretary of War Taft does not visit England on his way home from the east it will be a keen disappointment to his many admirers in the British Isles.

When the itinerary of his around-the-world trip was published in London shortly after his departure for Japan and it was noticed that he planned to visit Berlin and St. Petersburg but that he was not going to stop in either Paris or London, steps were taken to try to induce the secretary to come here, for a day or two at least, to meet some of the leading public men. In this case Mr. Taft would, of course, be received by King Edward. Washington was advised through the usual official channels that Mr. Taft's visit here would be agreeable, and there is still some hope, in spite of the fact that the secretary has written that he is hurrying home to prepare his report for the opening of congress, that he will take a steamer from some English port instead of going direct from Berlin to Cherbourg.

Agulnaldo on Taft's Visit.

Manila, Nov. 11.—A feature of the visit of Secretary Taft to Manila was the presence of Agulnaldo at several of the functions, for the first time since his capture. Discussing the probable results of the visit of Mr. Taft to Manila, he said:

"It is my belief that the benefits to follow the visit to the people of the Philippines will be greater than they can recognize at the present time. I am unable to form an opinion off-hand of the possible future advantages, but am confident that it has done good. The inauguration of the assembly has gone a long way to cement the friendship of my people with the people of the United States. As a fulfillment of a solemn promise, which many expected would not be fulfilled, the secretary of war did not bring independence for my people in his pocket, but he brought the means of attaining it. He told us how we can get it. The Philippines are thankful for the information and pleased at what the assembly has done, especially in the interests of legislation, education and agriculture."

Osmena Sees Harmony.

President of the assembly Osmena considers that the most important result of the visit has been the harmonization of the feeling between the Americans and the Filipinos. He is confident that much more has been accomplished than appeared on the surface. Commissioner Tavera states that Taft has demonstrated that the promises of the United States are to be fulfilled and has shown himself the friend of the whole people.

CLAIM FOR CREOLES DENIED.

Louisiana Court Refuses to Distinguish Them from Other Citizens.

New Orleans, Nov. 11.—An attempt to have Louisiana creoles placed in a class so distinct from other American citizens that they would have different jury rights failed Saturday in the supreme court. The record of the case was made public Sunday.

T. M. Laborde, whose counsel asserted him to be a creole, in appealing a felony charge gave in his complaint the claim that his jury should have been composed either entirely or largely of creoles. His counsel claimed that although Laborde lived in a parish where 95 per cent. of the population were creole, nearly all his jurors were Americans. Creoles were defined as descendants of French and Spanish ancestry, particularly French. They were said to hold more tenacious loyalty to the racial characteristics and traditions of their ancestors than persons of other descent in this country. The court did not recognize this distinction.

Italian Cabinet Minister Dies.

Rome, Nov. 11.—Emanuele Giannuccio, the Italian minister of public works, died here Sunday from cancer. He was born in 1857. The pope inquired daily concerning the condition of Minister Giannuccio during his illness, and on Saturday sent the dying man his benediction. These inquiries were the first example of solicitude from the papacy toward a minister of the ruling since the fall of the church from temporal power.

Tragedy at White Plains, N. Y.

White Plains, N. Y., Nov. 11.—John Bjorlin, butler at the Hilliard farm, the country home of Paul G. Thobaud, New York commission merchant, killed himself Sunday, after he had shot and dangerously wounded his employer's son, Paul, Jr. The latter, who alone can explain the shooting, is unconscious.

Fatal Duel Over Election Bet.

Fernando, Ky., Nov. 11.—As the result of a quarrel over an election bet, William Hopkins, son of Roy Thomas Hopkins, and Frank Foley, of this place, fought a duel here Sunday. Hopkins was instantly killed and Foley is fatally wounded.

JOPLIN IN GALA ATTIRE.

American Mining Congress Attracts Many to the Missouri City.

Joplin, Mo., Nov. 11.—A number of delegates and visitors arrived Sunday to attend the eleventh annual session of the American Mining congress, which convenes in this city Monday morning, in sessions which are to continue through the week.

First Vice President Thomas Ewing, of Vivian, Ariz., was the first of the national officers to arrive. Visitors came from Mexico City, New York, Nevada, California, Wyoming, Pennsylvania and Colorado.

There will be a spirited contest for the honor of entertaining the next annual congress. Speakers, Los Angeles, Reno, Nev., and Columbus, O., are now actively in the race. The candidacy of Columbus is in the interest of a movement to make the congress more national and international in character than it has been heretofore. Previous congresses have been held in the west.

The downtown sections of the city are tastefully decorated with flags and bunting, myriads of electric lights blizo on arches on the principal streets and a number of the larger stores are decorated quite lavishly.

Incidental to the regular work of the congress there will be side trips over the Missouri-Kansas lead and zinc fields, where more than 1,000 automobiles will be placed at the disposition of the entertainment committee.

CONFLAGRATION IN IQUIQUE.

Two Thousand Persons Made Homeless in Chilean City.

Iquique, Chili, Nov. 11.—This port has been visited by a fire, the biggest since 1882, which has entailed losses amounting to over \$1,000,000. The fire was about one mile distant from the commercial quarter of the city.

The son shot into the crowd of dancers several times. The McLoughlins were arrested.

International Spies Arrested.

Toulon, Nov. 11.—Five of the ring-leaders of what would appear to be a most important association of international spies were arrested Sunday by special detectives. The authorities also got a mass of papers, and a cursory examination of these documents leads to the belief that the gang for a long time past has been carrying on traffic in military and naval secrets.

Pedestrian Weston Beats One Day.

Syracuse, N. Y., Nov. 11.—Edward Payson Weston, the veteran pedestrian, who is walking from Portland, Me., to Chicago over the same route he covered 40 years ago, spent a quiet Sunday at his hotel in this city, and was greatly refreshed as a result of his long rest. He resumed his westward trip at midnight.

Work is Essential.

It is a grain of comfort to know that work, from a hygienic standpoint, is essential to the welfare of the human race. It trains the mind and it trains the hand. The fatigue attendant on it produces sound and refreshing sleep. It is one of the remedies for crime. It is uplifting if earnestly and faithfully performed. It is a safe outlet for the too animal spirits and the best of all medicine to temper sorrow.

Egyptian "Soul Houses."

The "soul houses" lately found at the cemetery of Rifeh, Upper Egypt, are tiny structures of clay, in which the souls of the dead were supposed to take refuge. They date from about 3000 B. C.

HIS COURTSHIP

By HELEN R. MARTIN,
Author of "Tillie: A Mennonite Maid."

COPYRIGHT, 1907, BY MCCLURE, PHILLIPS & COMPANY.

"I am disappointed in you, Peter," Daisy said reproachfully. "Miss Klumpp and I both supposed that you had fine though undeveloped perceptions or intuitions, which, with a little encouragement, might reveal you to yourself."

She turned her back on him in disgust and began to help Mrs. Morningstar with her berries. "You're not worth while, Peter," she cast at him over her shoulder. "A man with such views is capable of other underhand dealings."

Georgiana sighed. "If my faith in human nature was not very large I should believe that to give even a suggestion of real civility to a born Pennsylvania German was almost a psychic impossibility. Frankly, Peter, isn't it?"

"It may be that kind of an impossibility," answered Peter in a tone of reluctance to commit himself, "since you say so. I don't deny it no such statements."

"But, Peter, I had hopes of you that day you so nicely picked up my hat-pin for me," said Georgiana in her put-out-head tone of voice.

"I once tried to see how the pin was made, that you could stick it through your skull and not kill yourself," he said, disclaiming any gallantry in the act.

Both the girls regarded him doubtfully, but the stolidity of his face was impenetrable.

"Peter," said Daisy frankly, "sometimes I have a suspicion that you're a fox and are jollying us. Say, what dandy big gooseberries those are!" she exclaimed, with characteristic fervor, cutting more than she picked, to Mrs. Morningstar's evident discomfort.

"Daisy," said Georgiana in a tone that dropped Peter and Mrs. Morningstar out of the conversation, "did you get any news in your letter from Belle?"

"Never! Well, I should say! Don't you think—the Civic club in its prospect for next winter's work has gone and put me—me—down for a paper?"

Consentation was in her face and voice. Georgiana smiled.

"About what?"

"A theme on which I can't possibly ask uncle to write the paper for me. 'The Ind Effect Upon the Morals of the Community of the Autumn Displays of Underwear in the Department Store Windows, Especially the Figures of Women in Nightgowns, and the Admissibility of the Civic Club's Requesting the Removal of Such Demoralizing Displays.' That's my subject."

"If they look at the matter from a higher plane," said Georgiana, "they would see that it is their own minds that need to be regenerated rather than the shop windows."

"Let me take that down," cried Daisy. "That shall be my opening sentence. I shall also suggest," she went on, she wrote, "as a preventive or preventative, which is it? of so many unhappy marriages, that in place of the exhibit of women in nightgowns they display a windowful of men in their pajamas. The preacher wouldn't have any jobs then."

"You would better let me edit your paper before you stand up and read it to the club," Georgiana advised. "Does Belle write anything else?"

"Every one is out of town, and there's nothing doing, and she says she can hardly wait until you come back and meet that new professor of psychology. Oh," exclaimed Daisy, with a little squeal of delight, "won't it be bully?"

Georgiana tried to look dignified, but only succeeded in looking interested and rather pleased.

"Isn't it perfectly killing, George, the way every one seems to have settled things between you and that psychology man?"

Klump leaned his back against a pillar of the porch and gave himself up to enjoying himself.

"The young ladies meantime supposed their very language to be as incomprehensible to the farmer's wife and Peter as though they spoke a foreign tongue."

"Do you know," said Georgiana, her countenance softening with her pleasant recollection, "that even father has caught the infection of Dr. Klump's—well, popularity (I dislike the word). You know he is not apt to notice such things, but he remarked to me several times that he had never seen a young man so turn the heads of all the women—even the married women!"

"But, Georgiana," complained Daisy, "then I shall hate him, I know. I always do hate a man I'm expected to like and approve of. And a fellow who makes all the girls hysterical about him—oh, I know! I'll scrap with him!"

"He won't be apt to give you a chance if all they say of him is true," smiled Georgiana.

"I shall force him to see that I despise him!"

Georgiana laughed, then added: "Father himself told me that if he did not know Dr. Klump he would think he must be a booby, the way the girls and women make themselves silly about him. But the queer thing about it, father says, is that Dr. Klump doesn't reciprocate their attentions at all and is rather a cynic—different to women—indeed, rather afraid of them."

"What a clump!" cried Daisy contemptuously. "That's worse yet. No, George, I refuse to like that man. And if you don't like him I shall!"

"All him? I trust his relations with him will be on a plane too high to admit of the possibility of any such vulgarly as ill-timed. A girl always knows it when a man is going to propose to her and—"

"Oh, no, she doesn't, Georgiana. I have often thought a man was going to propose to me—and he didn't."

"Father told me," continued Georgiana, severely heading Daisy's slightly interpolated, "that it was a comfort to know that I was not capable of the weakness of such infatuation and that my self police would always save me from making that kind of a fool of myself."

"Well, I should think so," exclaimed Daisy warmly. "Oh, won't he have to go way back and sit down when he falls in love with you? I can hardly wait until I see it!"

"Wouldn't it be—oh—well, amusing," Georgiana granted, clasping her shapely hands about her knees and looking dreamily, "if after his adamantine front to all the other girls he should throw to me?"

"Very amusing, indeed," thought Klump.

"Which of course he will," affirmed Daisy dogmatically, "for you're not like the other girls—you're on a higher plane."

"And so is he," said Georgiana decidedly, accepting Daisy's tribute complacently.

"Perhaps," Daisy reluctantly conceded, "but he must be perfectly horrible—a conceited prig—with all the girls flustering him so idiotically."

"We shall cure him of that," Georgiana smiled, her tongue suggesting a prophetic which Klump couldn't help thinking a little gratifying.

"Father considers him nice," Georgiana went on. "But," she added, "I have heard him say of him that he had a sarcastic tongue. Now, sarcasm."

"Never! Well, I should say! Don't you think—the Civic club in its prospect for next winter's work has gone and put me—me—down for a paper?"

Consentation was in her face and voice. Georgiana smiled.

Upon the recommendation of Admiral Evans, four anchors will be carried by each vessel, so as to be ready for any emergency.

Will Test Provisions.
The cost of provisioning the fleet is estimated at about \$375,000, contemplating the feeding of a force of 15,000 men for 100 days. Only this week contracts were awarded for head cheese, frankfurter and other sausages, and coal.

Advantage will be taken of the two-ocean cruise of the battle ships to make several tests with the provisions aboard—their preservation, packing and handling. It is desired to find some suitable form of bagging in which to carry dried provisions, as it is believed bags will afford the advantage of compactness and greater facility in handling in difficult places than if their contents were carried in boxes or barrels.

For Small-Arms Practice.
Incidental to the visit of the fleet to the Pacific coast, the navy department is making arrangements to obtain a place for small-arms firing there, so as to give the men an opportunity for experience in that direction. It may be that improvised targets will be established at Magdalena bay, where there is to be considerable target practice, but the preference is to secure land for the establishment of ranges to accommodate 2,000 men a day as at Guantanamo.

Opportunities in Plenty.
The opportunities of the present for young men to succeed are vastly superior to the opportunities of a decade or two ago. The needs of our great commercial machinery multiply with its growth, and he is a fortunate young man who has learned the immense value of brains and perseverance.

More Important Part.
A French chemist is said to have discovered the secret of making diamonds. If he has also discovered the secret of making other people think they are diamonds his fortune is made. —N. Y. American.

East African Religious Ceremony.
Recently a strange ceremony was performed at Changanwa, East Africa, to bring rain. A house-to-house visit was made among the natives by a self-appointed committee who collected from each hut the sum of two annas. With the total thus collected an ox was purchased. A procession was then formed, in which all the available children took part. After the procession had proceeded around the district for a period of two hours, the ox was sacrificed, prayers for the Koran being sung by the children. The meat of the ox was then boiled in pots by adult participants and given to the children to eat until the whole was consumed. The bones and remaining offal of the carcass were later put in a sack, carefully carried to the sea and thrown into deep water. Circumstantially rain fell for a few hours on the succeeding day.

Harm in Roentgen Rays.
According to a Danish medical journal the Roentgen rays were recently used upon a boy 6 years old, who was treated in hospital for a disease of the hair. After 25 applications of the rays the lad was sent home cured. But whereas his nature had previously been bright and intelligent, now he became absent-minded and unreliable, and was sent back to the hospital. He has been for some time since under medical observation, and the pronouncement of the doctors attending the case is that the Roentgen rays can easily penetrate the thin scalp of a child and have an undesirable influence on the brain.

HEART TO HEART TALK TO FURNITURE BUYERS

We are forced to realize the fact that we are overstocked and badly so. We are carrying a load that is unnecessary and we are going to get out from under it regardless of sacrifice to profits. Janesville does not warrant us carrying so large a stock nor can we afford to do so, at the leaps and bounds in advancing prices in all lines of merchandise at wholesale. We had thousands of dollars worth bought before the advance and are determined to turn the same into cash regardless of loss to profits. This is the opportunity of a life time to wideawake, economical buyers to supply their wants in this line of goods at little expense. Be it one piece or an entire outfit—our loss your gain. WE DO NOT CLAIM WE ARE GOING TO LOSE MONEY OR GIVE YOU SOMETHING FOR NOTHING, but we claim we can save you FROM 25 TO 50 PER CENT on the same grade and quality of goods bought elsewhere, could you ask more? If you value money or need furniture you don't dare to miss this opportunity.

JUST A FEW HINTS OF WHAT YOU MAY EXPECT TO FIND.

Why this Sale
will be a Success

FIRST—Because "My Say So" is "My Do So."
SECOND—I do as advertised.
THIRD—Because of careful preparation.
We have been here long enough to know that no advertisement that is not backed up by the goods and prices as advertised is of any value whatever. Therefore when we advertise a sale the people know that we mean a sale and come for miles around to take advantage of our offerings. We might get up a little holler on a few minutes notice, juggle with a few prices and call it a "sale." That is not our way. We have secured Mr. N. M. Dyer of Chicago to conduct this sale. He is an expert in this line of work and will make careful preparation, consider every price concession and try to place the best at your disposal at money saving prices never made, never attempted, never dared before. This is the reason this will be the greatest opportunity for wideawake economical buyers right at the time of year you will need the goods.

THE MOST STARTLING REVELATIONS IN FURNITURE SELLING EVER RECORDED! Price reductions so out of the ordinary as to make one stand aghast at the marvelous display and prices. The one object of this extraordinary sacrifice is to force immediate reduction of my entire stock. Ordinary price reductions will not do the work. (I REALIZE THE FACT—PRICE IS THE MIGHTY MAGNET) to accomplish the desired end. FRANK D. KIMBALL'S name in connection with Furniture has been made famous throughout this community for square dealing and honest goods. This Sacrifice Sale is backed by my reputation. We are just overstocked and must reduce this stock. We must unload and turn this stock into cash regardless of sacrifice on my part. We are bidding hard for the ready cash. We expect to crowd into two weeks' selling an average 60 days' business. The prices we have placed on the goods will move them rapidly. This sale from start to finish will positively eclipse all attempts ever made in this city elsewhere. WHEN WE ADVERTISE BARGAINS WE MEAN IT IN THE TRUE SENSE OF THE WORD (STERLING VALUES IN OUR REGULAR STOCK.) Not the kind usually bought for so-called special bargain sales. Not a few pieces of undesirable furniture, BUT A RADICAL REDUCTION ON EACH AND EVERY ARTICLE IN STOCK. The wideawake, economical buyers of Janesville and this community cannot afford to miss this sale. Do you realize what this means to economical buyers forced to sacrifice all profits and a good bit of the original cost in many instances, to reduce this stock and turn it into cash, we have LOST SIGHT OF COSTS, VALUES, PROFITS OR LOSSES. A tremendous slaughter of modern merchandise such as Janesville never has seen. This is NO SUBTERFUGE BUT A BONA FIDE REDUCTION ON EVERY DOLLAR'S WORTH IN STOCK.
